EVENT REPORT

Date: 23rd Dec 2022

Event: Hackathon

Time: 9:00 AM Onwards

Venue: 2nd Block (Room no.-2203)

Organizers: HACKATHON in collaboration with IEEE ADGITM

No. of Teams/Participants: 10/18

About the contest:

The goal of a hackathon is **to create functioning software or hardware by the end of the event**. Hackathons tend to have a specific focus, which can include the programming language used, the operating system, an application, an API, or the subject and the demographic group of the programmers.

Activities performed:

Hackathons typically start with communication via a presentation or a web page from the hosting organization that mentions the objectives, terms, and details of the hackathon. Developers register to participate in the hackathon and are qualified after the organization screens their backgrounds and skills.

When the hackathon event begins, the participating individuals or teams start their programming work. The administrator of the hackathon is typically able to answer questions and offer help when issues come up during the event.

Winning Team Details:

NIKHIL , GAURAV , SHUBHAM , NAWAZ	AI&ML	2nd Year	Dr. Akhilesh Das Gupta Institute of Technology and Management (ADGITM), New Delhi
